

For healthy hands and improved outcomes.

A clean and comfortable environment is an essential part of the healing process. Our high-capacity LoCor® paper and dispensing systems help reduce frequent change-outs—to put patients at ease, support staff handwashing requirements, and promote facility efficiencies. In single-occupancy restrooms, our Livi® VPG products can make a clinical setting feel a little more like home. And no matter which Solaris Paper product you choose, our Rapidly Renewable Fiber (or RRF) base fiber gives you bright, white, soft, strong products that help support your facility's sustainability goals.

- Suitable for a variety of settings—from patient rooms to high-traffic public facilities.
- Remarkable strength and absorbency, for convenient and quick hand drying.
- LoCor® paper and dispensing systems help reduce change-outs, to save time and labor costs.
- Virgin-grown, Rapidly Renewable Fiber (RRF) produces white, bright, soft and strong towels and tissue products that meet the USGBC standards requirements to earn LEED® credits.**

*The RRF (rapidly renewable fiber) logo is a promotional mark of Solaris Paper, Inc. and does not denote any independent or professional environmental certification(s) or certifying organization. Solaris Paper AFH towel and tissue products contain a 20% - 80% virgin rapidly renewable base fiber.

**Solaris Paper towel and tissue products are derived from rapidly renewable resources / fiber and meet the requirements of the U.S. Green Building Council (USGBC) LEED standards per compliance pathways defined in EQc7 (Environmental Quality, credit 7) of LEED EBOM (v4) and IEQc3.3 (Indoor Environmental Quality, credit 3.3) of LEED EBOM (v3). The USGBC logo is a registered trademark of the United States Green Building Council.
